USPA NEWS - Translated by Dr. May Alshaikhli.

The story ended and the curtain was closed on everyone who lurked hostility to Egypt, the date will be written on April 2nd- 2024 on this day when the Egyptian people supported their wise political leadership after the Egyptian leader, President Abdel Fattah al-Sisi sent a great speech with some charism of power to encrypt multiple messages to the world as he revives the Egyptian people with the euphoria of greatness. President Sisi is a brave Arab leader who strikes in all directions and wins, he is a courageous and difficult man to win enemies, he was able to set limits for everyone who tries to tweet beyond his trend, President Sisi blew up energies with a contemporary vital system that keeps pace with the developed world. The distance that participants spent to the administrative capital is unmeasured.

It is not strange to Egypt and the civilization of the Nile Valley, this great historical event on April 2nd, the blood of humanity were intertwined on the land of Egypt and created man to create the first platform of culture, knowledge and system in the world. On this historical platform, the evidence of urbanization and the philosophy of social and political relations were written. Governments, military armies, management systems, agriculture, currency minting and weapons. From this Egyptian humanitarian aspect, it was and still is drawing the peoples of the earth to adopt their existence and shape their identity, from the Greek Europe in the north, to South Africa and its west, and then the countries of India and China to emulate the glory of the pharaohs.

From that great Egyptian polarity was the beginning of the establishment of the world order, where all the entities of nations and peoples revolve around the orbit of this polarity. From that beginning we can talk about the Egyptian army, the army of the Nile, which is rooted in the doctrine of faith of adherence to the land and the sanctity of the identity of civilization and the wisdom of man who is hard in his struggle for dignity. From this point of view, no army in the world has the right to express on the basis of the establishment of the Egyptian army, not in its organization or military doctrine, as it is the immortal expression of the conscience of the Egyptian man.

The great Egyptian army is knowledgeable with history with all its formations; it is the army that is experienced to deal with all the colors of riots, sedition and unrest with its national nature. Since the enemies of the Arab and Islamic nation drew the strategy of their project, they realized the factors of disrupting and thwarting their plans by reading history, the history that witnesses that there is no danger that undermines and destroys the dreams of evil empires except the great Egyptian army, especially since this fact constituted an obsession that hinders the plans of the enemies of the Arab world.

The Egyptian Arab Army has performed its national and national duty in combating terrorism and pursuing terrorist groups, especially in Sinai, a group of mobs in front of Mount Steel, which is the great Egyptian army that has written the most wonderful championships and glories in performing this sacred duty.

In order to establish the above, there is a historical responsibility on the great Egyptian citizen, which is the responsibility to participate in defending the personal fate and the fate of homeland and nation in the most complex historical stage. Hence, every Egyptian who is keen on the safety and future of Egypt must support the Egyptian citizen and the leader of President Abdel Fattah al-Sisi, with what President Sisi represents a keeper and an impregnable dam for Egypt as a land, people and history. And whoever does not see the danger of war in Gaza, who does not see what is happening in Sudan and Libya, and who does not see what is happening in the Mediterranean and the Red Sea must recalculate the mental, intellectual and even religious.

Politically, our world today is living in a transitional stage in the formation of an international order, this stage is considered the birth of a caesarean section of a new world, at the same time, do not leave this stage of major crises, storms, variables and even mapping in which the shape of the world changes. In the midst of this sensitive stage, Egypt must remain strong and able to preserve its entity and rights and always be at the forefront as it is historically the case. Therefore, President Abdel Fattah al-Sisi will complete the march in leading the ship of Egypt and the Arab nation to safety, prosperity and progress.

Egypt is the mother of the world and the mother of Arabism, the mother of our existence and the future of all of us, and we must justify it and defend its integrity. Mother of the world is a trust in your hand, our great Egyptian people, look at the flood of chaos that destroyed Syria, Libya, Yemen and Sudan, and how it was confronted in our beloved Egypt under the leadership and wisdom of President Abdel Fattah al-Sisi and the responsible elite with him in the army, police, politics and the general administration.
